

Since 1996 BRM Aviation buys and sells aircraft either for commercial exploitation as well as to lease to the airlines and pilot's schools

BRM Aviation supplies the following services:

- Search, purchase and import of aircrafts
- Consulting import tax
- Market analysis
- Inspection prior to purchasing
- Making agreements and purchase contracts
- Negotiation of costs
- Advising on the commercial exploitation
- Making agreements and contracts leasing or renting
- Purchase for subsequent leasing
- Advice on maintenance
- Analysis of operating costs
- Contracting of service suppliers
- Search for spare parts
- Lease of engines and other aircraft parts
- Flagging contracts
- Legal advice
- Cancellation of contracts
- Inspection after devolution of an aircraft
- Airworthiness Certifications approvals

We offer to new airlines and pilot's schools:

- Viability study
- Advise about the best aircraft in a specific business
- Purchase and rental aircraft to new companies to avoid large upfront investments
- Monitoring of airworthiness and maintenance
